

August 27, 2008

Dear Customer;

We continue to experience rapid increases in raw material and transportation costs thus making it necessary for us to announce a general price increase on our Grinnell Fire Protection Grooved product line effective Tuesday Sept. 30, 2008.

The list price for both our domestic and import grooved couplings and fittings will increase approximately 12%. The increase will be effective for all orders placed on and after Sept. 30. Orders placed prior to Sept. 30 for immediate shipment will be processed at the existing price schedule. A new price book reflecting this increase will be available on our web site www.tyco-fire.com by Sept. 22.

We thank you for your continued support, and we look forward to being of service to you.

Regards,

David Read
National Product Manager, Grooved Products
