To Our Valued Customer:

Tyco's costs for raw material, transportation, labor and employee medical coverage are continuing to increase. Due to those increases we find it necessary to implement a price increase on our Grinnell Fire Protection Grooved Products.

Effective March 13, 2006, Tyco Fire & Building Products will increase its published List Prices on all Grinnell Fire Protection Grooved products by approximately 5.5%. This will effect both domestic and import products.

The increase will be effective for all orders placed on and after Monday March 13. Orders placed prior to March 13, for immediate delivery, will be processed at the existing price schedule. A new price schedule reflecting this increase will be available on our web site by Feb 3.

We thank you for your continued support, and we look forward to being of service to you.

Regards,

*David Read*
