TYCO FIRE SUPPRESSION & BUILDING PRODUCTS INTRODUCES INDUSTRY-LEADING RAPID RESPONSE RESIDENTIAL DRY PIPE SYSTEM

Lansdale, Pa. (September 15, 2010) —Tyco Fire Suppression & Building Products (TFS&BP) is pleased to announce the release of the new RAPID RESPONSE Residential Dry Pipe System. This system is specifically engineered for NFPA 13D applications where areas are subject to freezing. The system integrates the new Model RCP-1 Residential Control Panel, Residential Sprinklers, CPVC Pipe and Fittings, and SprinkFDT software.

The heart of the RAPID RESPONSE Residential Dry Pipe System is the Model RCP-1 Residential Control Panel, which contains pre-programmed controls, an enclosed air compressor, and system performance gauges. UL Listed, the control panel is pre-assembled for quick installation and easy system design.

The Residential Dry Pipe System operates with RAPID RESPONSE Residential Sprinklers. These residential and dry-type residential sprinklers have undergone rigorous testing to meet UL1626 fire test criteria, including a 15-second delay for water delivery as required for use in dry pipe systems.

Another component of the Residential Dry Pipe System is TYCO CPVC Fire Sprinkler Pipe and Fittings, also UL Listed for use in dry pipe systems. TFS&BP offers the only complete line of BlazeMaster® pipe and fittings in the fire protection industry.

Additionally, system costs can be minimized using TFS&BP's patented residential dry system design method. Water delivery times can be conveniently determined prior to actual field installations using TYCO SprinkFDT design software.

To learn more about how the use of the RAPID RESPONSE Residential Dry Pipe System in applications where freezing might be an issue, contact your local Tyco Fire Suppression & Building Products territory manager or visit www.tyco-fire.com.

About RAPID RESPONSE

RAPID RESPONSE is a brand of Tyco Fire Suppression & Building Products representing the most complete residential fire sprinkler system on the market today. The RAPID RESPONSE Home Fire Sprinkler System consists of state-of-the-art fire sprinklers, CPVC pipe and fittings, and a full line of system components including riser assemblies, valves, water flow detectors, alarms and hangers. The RAPID RESPONSE Home Fire Sprinkler System is backed by an industry-leading 10-year limited warranty. www.tyco-rapidresponse.com.

About TYCO FIRE SUPPRESSION & BUILDING PRODUCTS

Tyco Fire Suppression & Building Products is a strategically aligned business unit with globally recognized products sold under leading brands including ANSUL, GRINNELL, HYGGOOD, NEURUPPIN, PYRO-CHEM, RAPID RESPONSE, SKUM, and TYCO FIRE PRODUCTS. Tyco Fire Suppression & Building Products produces fire protection and mechanical building construction solutions for commercial, industrial, institutional, governmental, and residential customers. Heavy emphasis is placed on research and development resulting in innovations and global approvals. Key products include manual firefighting equipment, detection/suppression systems, extinguishing agents, sprinkler systems, valves, piping products, and fittings. www.tycofsbp.com.
