TYCO MODEL ESFR-17 SPRINKLER EXPANDS TO AMERICAS REGION

Low-Profile Sprinkler for Warehouse and Storage Applications Now Available Throughout the Americas

LANSDALE, PA., USA (January 9, 2015) – Tyco Fire Protection Products (TYCO) announced the completed transition from the Model ESFR-17 (TY7226) to the new, low-profile Model ESFR-17 (TY7223) in the Americas region.

The new Model ESFR-17 sprinkler (TY7223) is designed for warehouse and other storage applications. These new sprinklers are UL Listed and FM Approved, and provide the equivalent function as the previous Model ESFR-17 sprinkler (TY7226), with the same trusted and proven quality of all Tyco products. Benefits of the new Model ESFR-17 include:

- more installation flexibility because of a profile that is 33 percent smaller than the previous Model ESFR-17 sprinkler (TY7226); and,
- may be designed, installed and used as a substitute for the current sprinkler it replaces.

For additional information regarding the Model ESFR-17 sprinkler transition, please contact your local Tyco sales representative, or visit www.Tyco-Fire.com.
