

February 4, 2011

To Our Valued Customers,

We at Tyco Fire Protection Products remain committed to responsibly controlling costs through numerous initiatives in every aspect of our business. At the same time, we continue our focus on cost & labor saving product introductions and industry expansion through our Rapid Response™ residential initiative.

Unfortunately with rapidly increasing costs, we find it necessary to increase our list prices on most Sprinklers, Valves, CPVC, Grinnell™ Fire Protection Grooved Products, and Resale Products by approximately 7% - 9% effective Friday, March 4, 2011.

Our new price book information will be available on February 18, 2011 and will be published on our website www.tyco-fire.com for your review.

We thank you for your business and remain committed to helping you grow. Your local territory manager can answer your questions regarding this information.

Sincerely,

The Water Product Management Team
